

product name

E14 LED Bulb GPHY33

product desc

Name: E14 LED Bulb GPHY33

Model:LED Bulb GPHY33

Description:

Dimension: ?43xH45mm

Input Voltage:AC90-260V Input Power:3W

Luminous Flux:Cool white 260lm,Warm white 210lm

color:Cool white?warm white

Color Temperature:Cool White 5600-7200K, Warm White 2700-3500K

Lamp Base:E14

Product Features:

- 1,High efficiency and energy conservation,than traditional incandescent lamp power saving80% above,in the same brightness is under the power of incandescent lamp 10 times;
- 2,Uniform color: Warm color temperature can be controlled in 150K,cool color temperature in 200K.
- 3,Green and environmental protection:DO not contain mercury,lead and other harmful metals.No ultraviolet Nostrobe.It's safe for human health.
- 4,Beautiful appearance,Practical,Great heat dissipation,Low brightness declines.
- 5,Long serviceable life:Ensuring the life in 40,000 hours above.

Application:

Widely used for shop window,department store,hotel,show room,living room,especially decorative lighting design for the luxury high standard large

space.
