

product name

LED Panel Light GPP06636

product desc

Name:LED Panel Light GPP06636

Model:GPP06636

Description?

Power:36W

Color Temperature:2700-3500K / 4000-5000K / 5500-6500K

Luminous Flux(Cool white):2800lm

CRI:75

Beam Angle:120o

Input Voltage:100-240VAC / 100-130VAC / 200-240VAC

Lifespan:>40,000 hrs

Storage Temperature:-40~+60?

Working Temperature:-20~+40?

Working Environment:Indoor

Material:Aluminum + GLP

Dimension: 595x595x10mm

Weight:3.6kg

Product Features?

- 1,Ultra-thin design, beautiful appearance, show household aesthetic feeling.
- 2,Low heat design, high efficiency and energy conservation, life span reaches longer than 50000 hours.
- 3,Bring in the idea of American energy star, almost 360 degrees light output.
- 4,Green light source, downy light, uniformity, No ultraviolet or infrared, protect your eyesight.
- 5,High commonality, easy installation.

6, Various type, according to your needs to order.

Product Application?

This product installation is embedded?condole top or surface install
apply to Household?Office?Hotel?School?Household and other need energy,
saving and long time lighting place.
