

product name

LED Panel Light GPP12306

product desc

Name:LED Panel Light GPP12306

Model:GPP12306

Description?

Dimension:1200x300x10mm

Power:36/45W

Lumions flux:2500/3200lm

Color Temperature:2700-6500K

Material:

Grust: High quality aluminum alloy,antioxidation

Light guide plate:Optical material,professional design of scattering netted dot

Voltage:AC110-240V 50-60Hz

Input current:800mA

CRI:75-75

Illuminate Angle:~120°

Luminaire efficiency:~90%

Opetating temperture:-20??50?

Storage temperature:-50??60?

Weight:3.8Kg

Product Features?

- 1,Ultra-thin design, beautiful appearance, show household aesthetic feeling.
- 2,Low heat design, high efficiency and energy conservation, life span reaches longer than 50000 hours.
- 3,Bring in the idea of American energy star, almost 360 degrees light output.
- 4,Green light source, downy light, uniformity, No ultraviolet or infrared, protect

your eyesight.

5,High commonality, easy installation.

6,Various type, according to your needs to order.

Product Application?

This product installation is embedded?condole top or surface installation, widely apply to Household?Office?Hotel?School?Household and other need energy saving and long time lighting place.
