

product name

LED Wall-washer GP-XD38

product desc

Name:LED Wall-washer GP-XD38

Model:GP-XD38

Description?

Power:12W

Size:38x50x1000mm

Materials:aluminum alloy

Input voltage:DC24V

LED number:144

Color:Red/Green/Blue/White/Warm White/Amber/RGB

Product Features?

Treatment corrosion resistance, antioxidation, scratches difficulty, High strength tempered glass, Not broken, safe high-performance, stainless steel screw, waterproof plug, design Scientific and Rational, sturdiness and durability, the internal use of small-angle Ultra bright LED, low-Voltage power supply, safe, reliable, energy Saving and environmental protection, is ideal for a wall according to shot of the lamp.

Product Application:

LED lights washing walls monomer used in the main building, historical building Wall Lighting, Light outside the building through lighting, indoor lighting partial. Green Landscape Lighting, advertising license prescribed, medical, cultural, and other specialized facilities Lighting, Bars, discos and other entertainment lighting atmosphere.
