

product name

T8 LED Tube GPT806081

product desc

Name?T8 LED Tube GPT806081

Model?GPT806081

Description?

Size: 26xL602

Power: 8W

Light source? DIP/SMD

Input voltage: AC85-300V

Light Flux: 792±10%

Lamp cover: transparent/milky white/stripe

Color Temperature: 2700-6500

Appearance Materials: Al+PC

Product Features?

- 1, High light efficiency and save energy? The light efficiency of lamp is more than 85LM/W? can save 80% power than the traditional tube.
- 2, Uniform color? This product adopts the automatic powdering technology to insure the uniformity of light color.
- 3, High color rendering? Color rendering index above 85.
- 4, Good radiating effect? This product adopts a modularization design to insure the efficiency of heat emission.
- 5, Green and environmental protection? DO not contain mercury? lead and other harmful metals? No ultraviolet or infrared.
- 6, Long serviceable life? Ensuring the life in 40,000 hours above.

Product Application?

Widely apply to Hospitals? Supermarket? Museum? School? Computer room? Bank? Subway? Exhibition hall? Hotel etc.
